

I A M

# CHRIS WALLACE

an interactive designer, developer, and former agency owner with over 18 years of experience in the digital services industry.

Highly skilled in a wide range of disciplines, covering technical, creative, and business domains, I've successfully lead interdisciplinary teams to create award-winning work, and through my services generated millions of dollars in revenue. Now, I am looking for the right team to join in the next chapter of my career.

## EXPERIENCE

### The SuperGroup

(OCT 2002 - JUN 2013)

CHIEF CREATIVE OFFICER & HEAD OF OPERATIONS

As one of three founding partners, I created and then operated our successful digital services agency for over a decade. Starting from nothing, I grew the company to eventually generate over \$4 million in annual revenue with a team of 18 full-time employees. Stemming from my background in both design and technical development, I tailored The SuperGroup to specialize in combining creative concepts and aesthetics with effective technological execution. In 2013 I sold my interest in the company.

### Teamworks Art

PRESENT

CEO & CREATIVE DIRECTOR

As the CEO and founder of TeamWorks Art, LLC, I created an e-commerce business crafting specialty college sports memorabilia. My role has been to conceptualize statues, conduct market research, direct traditional artists and 3D sculptors, communicate with fabricators to effectively prototype statues from the 3D art, and then coordinate with factories to produce the final pieces. I worked to obtain licensing agreements with the NCAA, and I also oversee the fulfillment, social media marketing, and online retail logistics of the business.
